TOP NEWS

CUSTOMER FEEDBACK WE WANT TO HEAR FROM YOU!

Council has approved a new customer feedback policy. To ensure your feedback is heard by the right department, please help us by following the new process in place.

If you have a question, concern, or suggestion about any Township operations give the office a call, send an email or fill out the customer feedback form. The form and policy can be found on our website at <https://www.assignack.ca/media/546>

NEW PARK BY-LAW WINTER PARKING REMINDER

This by-law is part of our ongoing efforts to improve road safety, accessibility, and winter maintenance.

As a reminder winter parking regulations are in effect annually from November 1st to April 15th which typically includes no parking on municipal roads between 1 AM to 6 AM. This includes bus and snow plow turnarounds and boat launch areas.

You can find the full by-law at <https://www.assignack.ca/media/517>

MAYOR'S BRIEFING

What a busy and exciting summer and fall season it's been here in Assignack! From Summerfest celebrations organized by the Lions Club, to the Friday Markets at the Museum, the colourful Flower Show by the Horticultural Society, and the annual Ball Tournament — there was always something happening in our community.

We also want to recognize the Assignack Agricultural Society for another successful Fall Fair and new this year, the Apple Social organized by the Assignack library. Also, thank you to Cooper's Farm for opening their beautiful sunflower fields for everyone to enjoy.

A special thank you also goes out to those who cared for the community gardens — including the plantings at the Cenotaph, the Medical Centre garden, and the gardens at Cardwell and Meredith Streets.

IMPORTANT - BEFORE YOU BUILD

If your lot borders on the shore road allowance, ensure you are not building in location that is not permitted. Building on municipal land creates title issues for a landowner and liability issues for the municipality. We do not allow building on these lands, cutting down vegetation, or the construction of decks for examples. We urge everyone to consult with the Township's building or by-law department before taking any action on their waterfront property.

Reminder: If you are looking to attend a meeting virtually, our live feed has jumped over to our YouTube channel at [@townshipofassignack7612](#)
